SUMMARY OF PROFESSIONAL AND RESEARCH INTERESTS	<p>Dr. Basu-Zych's interest and expertise involves multi-wavelength studies of starburst galaxies over the history of the Universe to understand the conditions within and surrounding these galaxies. Specifically, this research targets local analogs of Lyman break galaxies, a key population of high-redshift galaxies, to explore the evolution of galaxy properties in ultraviolet-selected (actively star-forming, dust- and metal-poor) galaxies as compared to other local star-forming galaxies (with lower SFRs) and infrared-selected galaxies (with similarly high SFRs, but with significantly higher dust content) over cosmic time. Within the topic of galaxy evolution, Dr. Basu-Zych's interests include investigating: star formation histories using multi-wavelength diagnostics and approaches; X-ray binary formation and evolution; close pair systems, where the galaxy environment is conducive to interacting and merging galaxies; dust and metallicity properties; HI gas content and the role of gas in star formation efficiency; galaxy kinematics and dynamics and relation to galaxy feedback; Lyman alpha blobs.</p>	
	<p>Additionally, Dr. Basu-Zych serves as NASA's High Energy Astrophysics Science Archive Research Center (HEASARC) staff scientist, maintaining the archive, web-pages, help desk and monitoring and analyzing the usage statistics.</p>	
EDUCATION	<p>Columbia University, New York, NY</p>	
	<p>Ph.D., Astronomy, Jan 2009</p>	
	<ul style="list-style-type: none"> • Thesis Topic: <i>Nature of $z < 1$ Ultraviolet-Luminous Galaxies</i> • Advisor: Professor David Schiminovich 	
	<p>M.A., Astronomy, Feb 2005</p>	
	<p>University of California, Berkeley, Berkeley, CA</p>	
	<p>B.A., Physics and Astronomy, May 2000</p>	
RESEARCH EXPERIENCE	<p>Associate Research Scientist</p>	
	<p>Jan 2016 to current</p>	
	<p>CRESST II UMBC/NASA GSFC</p>	
	<ul style="list-style-type: none"> • HEASARC Staff Scientist • maintaining database tables, developing user software for HEASARC, and managing public advocacy activities for the NASA Virtual Observatories. 	
	<p>Post-Doctoral Research Associate</p>	
	<p>Nov 2012 to Jan 2016</p>	
	<p>CRESST UMBC/NASA GSFC</p>	
	<ul style="list-style-type: none"> • Support Scientist for Physics of the Cosmos • X-ray studies of nearby and distant star-forming galaxies 	
	<p>CRESST USRA/NASA Postdoctoral Researcher</p>	
	<p>July 2012 to Nov 2012</p>	
	<p>NASA Goddard Space Flight Center</p>	
	<ul style="list-style-type: none"> • Study of X-ray binary populations in Lyman break galaxies/analogs – Supervisor: Dr. Ann Hornschemeier 	
	<p>NASA Postdoctoral Position (NPP) Fellow</p>	
	<p>July 2009 to July 2012</p>	

- NASA Goddard Space Flight Center
- X-ray and Swift UVOT Studies of Star-Forming Galaxies
 - Supervisor: Dr. Ann Hornschemeier

Graduate Thesis	2005 – 2009
Department of Astronomy, Columbia University	
• Multiple projects on UV-luminous galaxies	
– Thesis Advisor: Prof. David Schiminovich	
Graduate Research, Second year project	2003 – 2004
• Used 100ks of archived Chandra data to study X-ray emission in Ly α Blobs.	
– Supervisor: Dr. Caleb Scharf	
Columbia University, 1st year project	2002 – 2003
• X-ray project on pulsed emission from rotation-powered pulsars	
– Supervisor: Dr. Eric Gotthelf	
Lawrence Livermore National Laboratory, Undergraduate	1996 – 2000
• Worked with MACHO database and HST data to study microlensing candidates	
– Supervisor: Drs. Kem Cook and Charles Alcock	

RELEVANT OBSERVING EXPERIENCE & RESEARCH TOOLS	<i>Optical Astronomy:</i> MDM 2.4m spectroscopy, HST (WFPC2) <i>Near Infrared:</i> OSIRIS at Keck2 Integral Field Spectroscopy <i>Radio Observing:</i> J/VLA interferometry, GBT <i>X-ray Analysis and Simulations:</i> Chandra/ACIS (CIAO), MARX, SIXTE, SIMX <i>Computer skills:</i> IDL, Python, GBTIDL, AIPS, SQL, IRAF, Perl, C <i>Stellar Synthesis Code:</i> BC03, PEGASE <i>Survey Data:</i> FIRST, GALEX, SDSS, COSMOS, MUSYC, ACS-GOODS, COMBO-17, Chandra Deep Field South

TEACHING EXPERIENCE

COLUMBIA UNIVERSITY	2005-2006
<ul style="list-style-type: none"> • <i>Teachers Assistant for Introductory Astronomy For Majors course</i> <ul style="list-style-type: none"> – Led discussion for Introductory Astronomy course. 	
COLUMBIA UNIVERSITY	2004 – 2005
<ul style="list-style-type: none"> • <i>Head TA</i> <ul style="list-style-type: none"> – Managed lab instructors for teaching, grading exams for introductory Astronomy courses, maintained supplies and developed additional curriculum 	
COLUMBIA UNIVERSITY	2002 – 2005
<ul style="list-style-type: none"> • <i>Astronomy Laboratory Instructor</i> <ul style="list-style-type: none"> – Designed and taught hands-on astronomy lab course to non-majors. Graded and led help sessions for other Introductory Astronomy courses. 	
CHABOT SPACE & SCIENCE CENTER	2001 – 2002
<ul style="list-style-type: none"> • <i>Astronomy Education Specialist</i> <ul style="list-style-type: none"> – Developed and taught a high school astronomy curriculum, designed and conducted teacher workshops for middle school teachers in Optics. 	

PUBLIC OUTREACH & ASTRONOMY COMMUNITY SERVICE

Research Supervisor for High School Student in 2 year Science Research Program through joint sponsorship by Nyack High School & University of Albany June 2017 – 2019
Research Supervisor for 2 high school students for Senior Projects June 2017

	Research Supervisor or Co-supervisor for 6 NASA interns	2013–2020
	Guest Editor for <i>Galaxies</i> Special Issue X-ray binary formation and evolution – July 2021	June 2020 – current
	Peer Reviewer for <i>ApJ</i>, <i>MNRAS</i>, and <i>Nature</i> on ~ 5 publications	2010–2020
	Served on <i>Chandra</i> Time Allocation Committee as a Chair	June 2019
	Served on <i>Chandra</i> Time Allocation Committee	June 2012 & June 2016
	Served on Science Organizing Committee for <i>Chandra</i> 20 year Anniversary meeting	2019
	Serving on Athena-LSST Synergy Committee for	current
	Acted as subject matter expert for NASA's Universe of Learning program and helped to develop content for the ViewSpace exhibit platform	2019
	Volunteer for NASA's Ask an Astrophysicist	September 2010 – October 2012
	Served on <i>Swift</i> Time Allocation Committee	December 2010
	Guest Lecturer for OSHER JHU continued learning program	October 2019
	Girl's Science Day	Spring 2007, Fall 2007
	Undergraduate Research Mentor	Summer 2007
	Mentor for Middle School student in Harlem, NY	Spring 2006
INVITED TALKS	<ul style="list-style-type: none"> • AAS 235 (Honolulu, HI) Splinter session on <i>The Athena X-ray Mission: Multi-wavelength and Multi-messenger Opportunities</i>—“Athena-SKA synergy” • University of Massachusetts, Amherst, Department of Astronomy Colloquium, April 2018, Amherst, MA – “Young galaxies in an old universe: A multiwavelength study into the misfits of our local universe” • University of Arkansas Physics Department Colloquium, April 2017, Fayetteville, AK – “Secrets of youthful systems: Young galaxies in an Old Universe” • Chandra 15 years Symposium, November 2014, Boston, MA – “X-ray Emission in Primordial Starbursts” • Colloquium, March 2013, University of the Pacific, Stockton, CA – “Secrets to staying young: Young galaxies in an Old Universe” • Astrophysics Colloquium, March 2010, NASA/GSFC, Greenbelt, MD – “Exploring the Nature of $z < 1$ Ultraviolet Luminous Galaxies (UVLGs): Local Analogs of Lyman Break Galaxies” • IPAC Astronomy seminar, August 2008, Pasadena, CA – “Exploring the Nature of Ultraviolet Luminous Galaxies (UVLGs)” 	
PUBLIC TALKS	Astronomy on Tap (Washington D.C.) TALK: <i>Colossal Cosmic Collisions: The Spectacular Things That Happen When Galaxies Meet</i>	March, 2016
	Public Lecture (Columbia U., NY)	May, 2009

TALK: *The Violent Tendencies of Galaxies*

OTHER RELATED JOB EXPERIENCE	Chabot Space & Science Center <ul style="list-style-type: none"> • <i>Astronomy Education Specialist</i> <ul style="list-style-type: none"> – (see Teaching Experience section for description) Globalstar(Lockhead Martin/Loral Space Systems) <ul style="list-style-type: none"> • <i>Mission Analyst and Operations Command</i> <ul style="list-style-type: none"> – Commanded 52 low-orbit satellites for telecommunication purposes. Calculated and performed orbit corrections. 	2001 – 2002 2000 – 2001
SELECTED PUBLISHED & SUBMITTED ARTICLES	In summary: 38 peer-reviewed published and submitted papers (10 as first-author, and 28 others as co-author), as of September, 2020. These papers have received >2400 citations (first author papers were cited >300 times). Publication H-index is 23. Relevant published papers are listed below in reverse chronological order.
